## Smart Symbolizing

Simply type your sentences and SymWriter will convert your text into symbols. SymWriter uses natural language processing to present the best symbol match based on parts of speech and the sentence structure. And with the use of its built-in voice synthesizer, SymWriter can reinforce the connections between words and symbols while guiding students in English or French.

## Comes with full Canadian English and French versions.

Change to French or into English with one click:

- Full symbolizing in both languages
- Hi-Quality French and English synthesizers
- Paste in or type French text
- Special Canadian symbols for place names, social studies, sports, and more
- Canadian English Spelling support

## Symbols Supporting Language Learning:

Beginning readers and writers have help with small words, confusables, and new vocabulary.

Second Language learners will love the support.

More advanced writers find the symbols, pictures, and speech motivating and inspiring.

Just drop one of the more than 1500 clip art images and photographs at the top of a page, and watch your students start writing.

## For Teachers

- Easily create symbol strips for books
- Add symbols to worksheets to support new learning
- Cut and paste any electronic text for quick symbolized stories
- Easily create writing grids or modify dozens of examples for whole class instruction and writing

## Universal Design for Learning Ready

- Choose from 5 different pre-set writer interfaces so students at all levels can easily get started with writing
- Use the writing Grids and buttons for non-keyboard users – great for mouse, switch, touchscreen, interactive white board
- Built in switch access
- Works with Intellikeys

## Widgit Symbols

(WS) were designed and developed to support, improve and assist learners' emerging literacy skills. A strong schematic structure supports understanding. Many of the 10,000 symbols support curriculum topics such as math, science and history, helping with comprehension of new and difficult concepts. Comes With

- Over 10,000 symbols
- Never pay for more symbols again - free Internet symbol updates
- English and French voices
- Canadian dictionary
